MEMORANDUM FOR Mr. Sorensen and Mr. Bundy

RE: Congressional Testimony on Cuba: September - February

Pursuant to our telephone conversation, we are sending you copies of the classified and public testimony given by all State Department officers between August of last year and through February of this year on Cuba. As you can see, though not the principal subject of much of the hearing, Cuba, in fact, was covered extensively or in part.

In addition to the hearings listed below, the following are the only two definitely scheduled for the future: Assistant Secretary Martin and Ambassador Thurston (Haiti), Monday, February 18, Selden Subcommittee on Latin America, Executive Session, Subject: Cuban Subversion in Latin America; and Assistant Secretary Harlan Cleveland, Monday, February 18, Church Subcommittee on International Organizations, Executive Session, Subject: The U.N. Special Fund Cuban Project and the recent UNESCO publication on human rights in the U.S.S.R. Chairman Stennis has indicated informally that he plans to call Secretary Rusk within the next two weeks also.
